ABOUT US

Mountain Consulting, Inc. (MC), located in historic downtown Dover, Delaware, is a professional services firm, created by its co-owners in 2003. MC entered into the civil engineering arena by initially providing residential land boundary surveys. MC extends services to both public and private clients, as well as nonprofit organizations. We continue to expand our services and are excited about our future. MC has provided services throughout Delaware to local state agencies, private, commercial and residential clients. We offer services relative to land usage and planning from collection of field data to the completion of a project, including design, construction management, and oversight.

We are registered Professional Engineers in Delaware and Maryland. Our survey department has over 20 years of experience. Our Department of Defense (DOD) experience includes Military Housing Privatization, Resident Construction Management, Contract Program Management, Title II Services, Certified Quality Management (CQM) by the Army Corps of Engineers, and Construction Oversight.

We believe in always striving for the best. This is achieved by our staff being flexible, responsive, team players, and client oriented.

CERTIFICATIONS

We have the following certifications:

- State of Delaware Office of Minority and Women Business Enterprise (OMWBE)
- City of Wilmington Disadvantaged Business Enterprise (DBE)
- State of Delaware Department of Transportation (DelDOT) Unified Disadvantaged Business Enterprise Program
- Central Contractor Registry (CCR)

AFFILIATIONS

We are members of American Society of Civil Engineering (ASCE), National Society of Black Engineers (NSBE), and PTAC of Delaware.
