consulting

"Leading by example"

Mountain Consulting, Inc. (MC) founded in September 2003, provides civil engineering design, project and construction management, Title II, and Construction Quality Management services, as well as administrative support. MC has provided services to Federal, State, and commercial clients for more than 17 years with over 60% of sales generated from returning clients and referrals.

ABOUT COMPANY LEADERSHIP

MC is managed by Mrs. Kim Adams. Mrs. Adams guides the company with more than 30 years of experience in business management, development, and contract management. Mrs. Adams believes in a well-organized organization and continues to raise the expectations of her team and clients. Mrs. Adams' goal is to increase MC's market share in the engineering, construction and professional services industry.

Mr. Troy Adams, is a registered Professional Engineer with over 27 years' experience in engineering planning/design and project management. Mr. Adams' vast knowledge and experience with the DOD, DOT, and local State Government will prove invaluable in MC's quest to secure future contracts both federally and commercially.
