

Mountain Consulting Inc. is an Engineering and Design Build firm with an immediate opening for an experienced Professional Land Surveyor (PLS) in our Dover, DE Office.

The successful candidate will currently be a licensed Professional Land Surveyor (PLS) in Delaware and Maryland. This position requires the management and oversight of all types of land survey services using up-to-date survey instruments and accessories including robotic total stations, RTK, data collectors and GPS equipment. With the use of our state-of-the-art survey equipment, we will ensure that both you and the client have all the right tools needed to make each project a success.

This position requires a high level of attention to detail and the ability to work independently and within a team. Excellent communication skills and ability to interact effectively with others are necessary as you will be working directly with a variety of clients and our personnel in the firm's offices. Responsibilities of this position will include project development/coordination, project management, meeting attendance, and business development to support our marketing efforts.

We encourage all applicants to apply, as we offer a highly competitive compensation plan and generous benefit package, as well as a \$10,000.00 signing bonus.

Benefits:

Mountain Consulting, Inc. offers group health insurance including medical coverage through Blue Cross / Blue Shield, 401(k), employee profit sharing, paid holidays, vacation, tuition reimbursement, yearly bonus program. Salary commensurate with experience.

Qualifications:

- Minimum 10 years of experience
- Licensed DE/MD Professional Land Surveyor
- Working knowledge of modern survey methods
- Knowledge of modern survey field equipment
- Carlson product experience, including Carlson Survey and Civil for AutoCAD experience a plus
- Knowledge of Global Positioning Systems (GPS) survey equipment experience a plus
- Proficiency with RTK GPS and Robotic Total Stations
- Requires the ability to develop and maintain effective working relationships with supervisors, subordinates, and related personnel.
- The candidate must have excellent written and verbal communication skills, working knowledge of Microsoft Word, Excel, and Outlook.
- Must demonstrate attention to detail and organizational skills

Responsibilities:

- Estimation of survey needs and preparations of proposals
- Preparation and processing of ALTA/ACSM Land Title Surveys, topography surveys, boundary surveys, plats legal descriptions and sketches
- Record research of deed records, tax maps, State/City and County rules, regulations and statutes

- Record keeping of field data, survey determinations and electronic data
- Boundary and point determination/reconciliation
- Coordinate and direct field crews for field evidence searches, setting monumentation, boundary reconciliation, setting and re-setting property markers
- Computing Construction Stakeout points/plats for grading, curb, roadways, buildings, utilities, property/ROW, and E&S
- Drafting detailed plans and plots
- Complete management of survey projects from scheduling of field crews to ensuring project deadlines are met.
- Commendable work ethic and commitment to deadlines
- Development and maintenance of public & client relationships
